THIS IS TO CERTIFY, That Paradise Valley Ranch Company, LLC
c/o James A. Hennefer

San Francisco, CA 94104

Has the right to use waters of an **Jericho Creek in Lake County** tributary to **Hunting Creek thence Putah Creek**

for the following purposes: **Irrigation**

Amended License 8131 supersedes the license originally issued 05/19/1967, which was perfected in accordance with the laws of California, the regulations of the SWRCB or its predecessor, and the terms of Permit 13056. The priority of this right dates from 12/20/1960. Proof of maximum beneficial use of water pursuant to Application 19884 was made as of 06/22/1966 (the date of inspection).

The amount of water that may be used under this license is limited to the amount actually beneficially used for the stated purposes and shall not exceed 0.17 cubic feet per second by direct diversion to be diverted from about May 1 to about June 30 of each year and 5 acre-feet per annum by storage to be collected from about November 1 of each year to about May 1 of the succeeding year. The maximum withdrawal in any one year under this right has been 5 acre-feet.

The equivalent of such continuous flow allowance for any 30-day period may be diverted in a shorter time, if there be no interference with other vested rights.

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

South 1,302 feet and East 990 feet from NW¹/₄ corner of Section 5, T11N, R5W, MDB&M, being within SW¹/₄ of NE¹/₄ of said Section 5.

A DESCRIPTION OF THE LANDS OR THE PLACE WHERE SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

19 acres within SW¹/₄ of NE¹/₄ of Section 5, T11N, R5W, MDB&M

Licensee shall comply with the following provisions which are derived from the Condition 12 Settlement Agreement dated March 10, 1995 (Agreement) pursuant to the Sacramento County Superior Court, Judicial Council Coordination Proceeding No. 2565:

(1) Licensee is hereby put on notice that the Sacramento County Superior Court, Judicial Council Coordination Proceeding No. 2565, has retained jurisdiction over the parties and, upon application by the watermaster, has the right to temporarily enjoin the diversion of water under this license for noncompliance with the terms of the Agreement.

(2) The Court has appointed a Watermaster to implement the provisions of the Agreement. The licensee shall be responsible for partial payment of the watermaster costs in accordance with the terms of the Agreement.

(3) Licensee may employ existing methods or means of measurement (or alternatively any other standard means of measurement normally acceptable or satisfactory to the SWRCB in its administration of appropriative water rights) for determining the amount of water directly diverted and diverted to storage under this license, unless otherwise specified by the Agreement.

(4) Licensee shall install at licensee's own cost such additional or other measurement devices as are necessary to measure actual depletions, if the watermaster determines that additional measures are necessary, consistent with Section 3.A.3 (Measuring Devices) of the Agreement.

(5) Licensee shall report to the watermaster annually, on or about September 1, the amount of water diverted to storage at the beginning and end of the Accumulation Season as required by the watermaster and the amount of water directly diverted under this license. Such annual reports shall be made in writing on forms approved by the watermaster.

(6) The watermaster shall have the right to enter property to inspect measuring equipment and to observe compliance with the terms and conditions of this license, upon 48-hour prior notice and upon such reasonable conditions as licensee may prescribe.

(7) Licensee is hereby put on notice that there may be years when diversion of water under this license will not be within the reservation of water established for the Putah Creek watershed upstream of Monticello Dam, as set forth in the Agreement and that in those years no water may be available under this license.

(8) In the event Allowable Depletion is exceeded in any year, licensee shall release water diverted to storage to the extent necessary to bring the Allowable Depletion into compliance or shall curtail direct diversions of water during ensuing seasons until the amount of the exceedence is paid back consistent with the repayment provisions of the Agreement. Licensee's obligation to release water from storage shall be governed by the repayment provisions of the Agreement. (Agreement pp. 9, 10, and 11)

(9) In any year in which Annual Depletion exceeds Allowable Depletion, if Lake Berryessa: (1) does not drop below 640,000 acre-feet in storage as of May 1, licensee shall have three years, starting in the next Accumulation Season, to make up or repay licensee's excess diversion (2) does not reach 640,000 acre-feet of storage as of May 1, licensee shall have one year, starting in the next Accumulation Season, to make up or repay licensee's excess diversions. In the event that Lake Berryessa spills at any time prior to full payback of excess depletion, licensee shall be excused from any further obligation for repayment of the overage.

(10) Licensee shall provide watermaster prior notice of any repayment. Repayment may be made either by releases from storage, curtailment of direct diversion, or by the provision of water from other sources.

(11) Licensee shall notify the watermaster of any change in ownership of land, changes in the water right, or changes in address related to the license.

(12) Licensee is hereby put on notice of licensee's right, upon reasonable prior notice, to inspect and to copy, at licensee's own expense, all records and reports of the watermaster.

Inclusion in the license of certain provisions of this Agreement shall not be construed as disapproval of other provisions of the Agreement or as affecting the enforceability, as between the parties, of such other provisions insofar as they are not inconsistent with the terms of this license.
